

STERILE

Sterile Dropper Bottles

- Use for the preparation of sterile ophthalmic solutions.
- The outside of the bottles are sterile until the package is opened; the inside is sterile until the cap is removed.
- Snap-in dropper tips and caps are shipped attached to the bottle.
- The 3mL dropper releases approximately .028mL per drop.
- The 7, 15 and 30mL dropper bottles release approximately .035mL.
- 12 per package come in a heat-sealed package. 1 and 2 per package come prepacked in a sterile package.
